## EXPANSION STRIP JOINT 145MM

Part No	Description	Expansion Range	Material	Pack
ESJ145-5	Expansion Strip Joint Replaces the need to box the end of two adjoining gutters and also the need to form a bridge to span the boxed ends. The biggest benefit, other than ease of installation is that in case of a blocked downpipe any water can flow across to the adjoining gutter eliminating flooding.	145 to 175mm	EPDM	1 X 5MTR

## GRAB STICK

**GRABSTICK** The ultimate magnetic holding tool can hold all types of metal roofing or fencing, it will temporarily retain insulation foils and sarking on walls and roofs, it can hold a measuring tape or stringline in place, and can aid tradespeople as they drill cut or machine, its like having an extra pair of hands.

## FLASHTAC - Weather Proofing Tape

Bear Flashtac Tape is a self-adhesive laminate tape designed for temporary repairs. Its reinforced aluminium cover film and bitumen rubber compound is highly adhesive to many construction materials. Surfaces, edges and rabbets are completely covered and sealed. The tape is impermeable to water vapour and oxygen. The silver finish allows visually inconspicuous applications. Offers long lasting and weather resistant results.

- A versatile bitumen tape that forms an extremely durable weather seal. Paintable aluminium backing.
- Ideal for temporary sealing, flashing, repairing, water and weather proofing most surfaces.
- The strong self adhesive bitumen base membrane is designed for permanent repairs.
